# UJIAN TENGAH SEMESTER GENAP PEMROGRAMAN KOMPUTER 2 TEKNIK INFORMATIKA

Dosen Pengampu: M.Nishom, M.Kom.

Oktavia Dwi Mulyaningsih 18090116

**4B** 

POLITEKNIK HARAPAN BERSAMA TEGAL 2020

#### Dokumentasi:

#### 1. Membuat database

- a. Buka Xampp, dan jalankan MySQL, pilih admin untuk masuk ke phpmyAdmin.
- b. Lalu buat basis data dengan nama projectuts, dan di dalamnya dibuat 2 tabel yaitu td\_admin dan td\_dokumen.

#### c. Isi tb admin

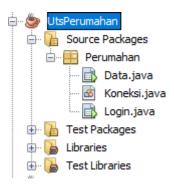

### d. Isi tb\_dokumen

#### 2. Membuat Project

- a. Buka aplikasi Neatbeans, klik file > new project > pilih java > javaaplication > masukan nama projectnya yaitu uts\_perumahan > hilangkan centang createmain.class.
- b. Membuat packages dengan nama perumahan

#### 3. Membuat Class

- a. Membuat class Koneksi, dan buat Jframe From dengan nama Data dan Login.
- b. Class Koneksi, untuk mengkoneksikan ke database. Masukan kodingan kedalam class Koneksi seperti dibawah ini

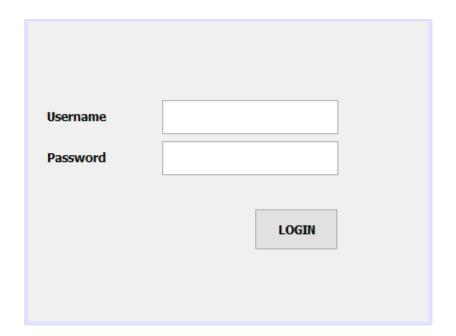

```
package Perumahan;
import com.mysql.cj.jdbc.MysqlDataSource;
import java.sql.Connection;

/**
    * @ author user
    */
public class Koneksi {
    public static Connection sambungDB(){
    try {
        MysqlDataSource dataSource = new MysqlDataSource();
        dataSource.setUser("root");
    }
}
```

```
dataSource.setPassword("");
    dataSource.setServerName("localhost");
    dataSource.setDatabaseName("projectuts");
    dataSource.setPortNumber(3306);
    dataSource.setAllowMultiQueries(true);
    Connection c = dataSource.getConnection();
    return c;
} catch (Exception e) {
    System.err.println(e.getMessage());
}
return null;
}
```

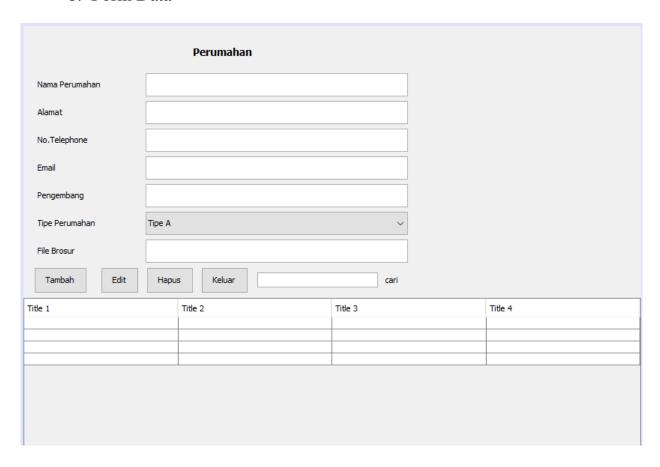

### 4. Membuat JfameForm

a. Form Login

- Username > JLabel , TextField > txtusername
- Password > JLabel , TextField > txtpassword

#### b. Form Data

- a. Nama > Jlabel , TextField > txtNama
- b. Alamat > JLabel, TextField > txtAlamat
- c. No.Telephone > JLabel , TextField > txtTelephone
- d. Email > JLabel, TextField > txtEmail
- $e. \ \ Pengembang > JLabel \ , \ TextField > txtPengembang$
- f. Tipe Perumahan > JLabel, JComboBox > cmbTipe
- g. File Brosur > JLabel, TextField > txtFile
- h. Tambah > JButton > btnTambah
- i. Edit > JButton > btnEdit
- j. Hapus > JButton > btnHapus
- k. Keluar > JButton > btnKeluar
- 1. Cari > JLabel, TextField > txtCari
- m. Tabel > JTable > tblData

#### Kemudian isikan kodingan pada source data

```
package Perumahan;
  import Perumahan. Koneksi;
  import java.awt.HeadlessException;
  import java.sql.Connection;
  import java.sql.SQLException;
  import javax.swing.JOptionPane;
  import javax.swing.table.DefaultTableModel;
   /**
   *
   * @author user
  public class Data extends javax.swing.JFrame {
     String idData;
     private void tampilkan_data(String key) {
       DefaultTableModel model = new DefaultTableModel();
       model.addColumn("No.");
       model.addColumn("Id.");
       model.addColumn("Nama Perumahan");
       model.addColumn("Alamat");
       model.addColumn("NO. Telephone");
       model.addColumn("Email");
       model.addColumn("Pengembang");
       model.addColumn("Tipe Perumahan");
       model.addColumn("File Brosur");
       try {
         int no = 1;
         String where = key.isEmpty()? "": "WHERE nama LIKE '%" +
key + "%' ";
         String sql = "SELECT * FROM tb_dokumen "+where;
         java.sql.Connection conn = (Connection) Koneksi.sambungDB();
         java.sql.Statement stm = conn.createStatement();
         java.sql.ResultSet res = stm.executeQuery(sql);
          while (res.next()) {
            model.addRow(new Object[]{no++, res.getString(1),
```

## • Ketikan kodingan dibagian btnTambah

```
private void btnTambahActionPerformed(java.awt.event.ActionEvent evt) {
    try {
       String sql = "INSERT INTO tb dokumen VALUES (NULL, "" +
txtNama.getText() + "'," + txtAlamat.getText() + "'," +
txtTelephone.getText() + "'," + txtEmail.getText() + "'," +
txtPengembang.getText() + "',"" + cmbTipe.getSelectedItem() + "',"" +
txtFile.getText() + "')";
       java.sql.Connection conn = (Connection) Koneksi.sambungDB();
      java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
       pstm.execute();
       JOptionPane.showMessageDialog(null, "Proses simpan Data
berhasil");
       tampilkan_data("");
     } catch (HeadlessException | SQLException e) {
       JOptionPane.showMessageDialog(this, e.getMessage());
    txtNama.setFocusable(true);
```

#### • Bagian btnEdit

## • Bagian btnHapus

```
private void btnHapusActionPerformed(java.awt.event.ActionEvent evt) {
    try {
        String sql = "DELETE FROM tb_dokumen WHERE id = "" +
    idData + """;
        java.sql.Connection conn = (Connection) Koneksi.sambungDB();
        java.sql.PreparedStatement pstm = conn.prepareStatement(sql);
        pstm.execute();
        JOptionPane.showMessageDialog(null, "Hapus Data Berhasil");
    } catch (HeadlessException | SQLException e) {
        JOptionPane.showMessageDialog(this, e.getMessage());
    }
    tampilkan_data("");
}
```

## • Bagian btnKeluar

```
private void btnKeluarActionPerformed(java.awt.event.ActionEvent evt) {
    System.exit(0);
}
```

## • Bagian tblData

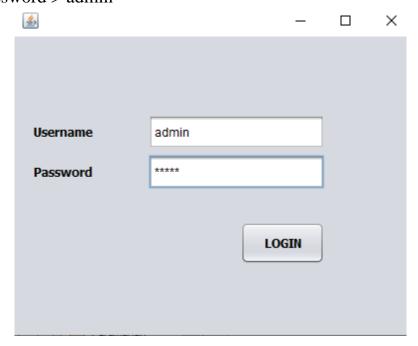

```
private void tblDataMouseClicked(java.awt.event.MouseEvent evt) {
    int baris = tblData.getSelectedRow();

if (baris > -1) {
    idData = tblData.getValueAt(baris, 1).toString();
    txtNama.setText(tblData.getValueAt(1, 2).toString());
    txtAlamat.setText(tblData.getValueAt(1, 3).toString());
    txtTelephone.setText(tblData.getValueAt(1, 4).toString());
    txtEmail.setText(tblData.getValueAt(1, 5).toString());
    txtPengembang.setText(tblData.getValueAt(1, 6).toString());
    cmbTipe.setSelectedItem(tblData.getValueAt(1, 7).toString());
    txtFile.setText(tblData.getValueAt(1, 8).toString());
}
```

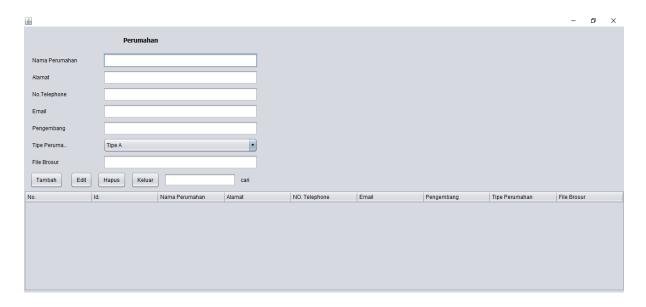

## • Bagian txtCari

## 5. Finish. Kemudian run dan liat hasilnya

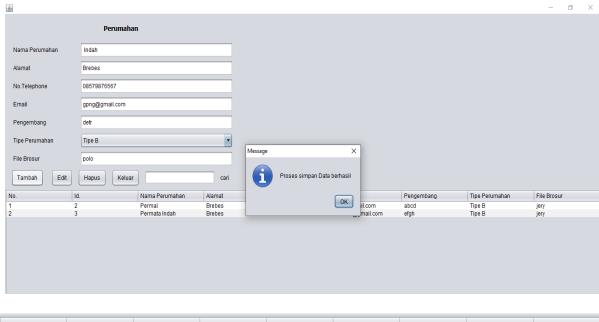

- Username > admin
- Password > admin

- Kemudian klik LOGIN, otomatis muncul seperti dibawah ini, dan jangan lupa jalankan Xampp nya sebelum menjalankan aplikasi.

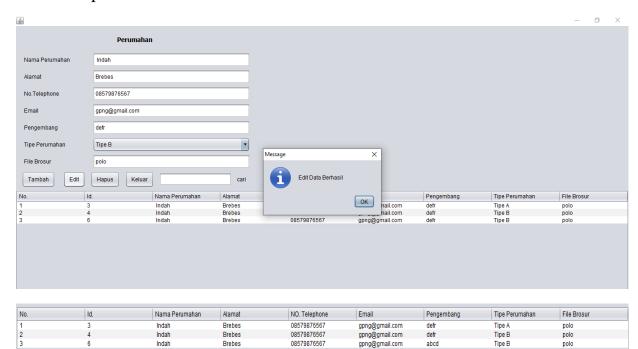

# - Tampilan btnTambah data

No.	ld.	Nama Perumahan	Alamat	NO. Telephone	Email	Pengembang	Tipe Perumahan	File Brosur
1	2	Permai	Brebes	085798765432	okt@gmail.com	abcd	Tipe B	jery
2	3	Permata Indah	Brebes	085798765678	ahmd@gmail.com	efgh	Tipe B	jery
3	4	Indah	Brebes	08579876567	gpng@gmail.com	defr	Tipe B	polo

# - Tampilan btn Edit data

# - Tampilan btn Hapus data
